JHB/PC/G.1011

10th December 1982

Dear Mr. Bailey,

Brown & Williamson Corporation "Barclay"
Patents in Europe

Further to my letter of 6th August 1982, the developments in the European situation, and particularly in Switzerland, make it desirable that the review forwarded with my last letter should be brought up to date.

I have accordingly prepared some further observations, with the current status of the patents and applications in various countries tabulated, along with indications of the proposed action and of the hypothetical action that BAT could take against another manufacturer introducing an infringing product.

I was talking recently on the telephone to Art Palmer and mentioned that I had just completed this further review, and he asked to be sent a copy as quickly as possible. Accordingly, I will send a copy directly to him.

If you have any questions arising from the observations in the enclosed review, please do not hesitate to write or call.

Yours sincerely,

J.H. BASS

Enc: Updated observations.

c.c. Arthur I Palmer Jr.
